**Manager, Public Policy & Government Relations**

## Overview

Alnylam is the industry leader in the translation of RNA interference (RNAi) into a new class of innovative medicines with the potential to address the unmet needs of patients with debilitating diseases. Founded in 2002, Alnylam was built upon a bold vision of turning scientific possibility into reality and is now advancing a robust pipeline of investigational RNAi therapeutic medicines, including five programs in late-stage development. Alnylam currently has two commercial RNAi therapeutic products. The first product is approved in the U.S., EU, Canada, Japan, and Switzerland for the treatment of the polyneuropathy of hereditary transthyretin-mediated (hATTR) amyloidosis in adults and the second product is approved in the U.S. for the treatment of adults with acute hepatic porphyria (AHP). Alnylam also has a deep pipeline of investigational medicines, including five product candidates that are in late-stage development. Headquartered in Cambridge, Mass., Alnylam employs over 1,300 people in 18 countries and is rapidly growing globally, with additional offices in Norton, Mass., Maidenhead, U.K., Zug, Switzerland, Amsterdam, Netherlands, and Tokyo, Japan. Alnylam is proud to have been

recognized as one of The Boston Globe's Top Places to Work five years in a row (2015-2019), a Great Place to Work in the U.K. and Switzerland in 2019 and Science Magazine's #1 Top Employer in 2019. Please visit [www.alnylam.com](http://www.alnylam.com) for more information.

The Manager will focus on legislative and regulatory issues as well as access matters at the US federal and state level that impact Alnylam and the patients we serve. The position will undertake analysis and create content that support Alnylam's programs and corporate objectives. The position will also be responsible for supporting the operation of Alnylam's political education and engagement programs, as well as Alnylam's grassroots and public affairs efforts.

### **Summary Of Key Responsibilities**

Public Policy Analysis

Government Relations

Qualifications

***Alnylam Pharmaceuticals is an EEO employer committed to an exciting, diverse, and enriching work environment.***

Support engagement with federal and state agencies and other state governmental entities (Administrative, Legislative) to ensure patient access to Alnylam therapies

Work collaboratively with Global Public Policy & Government Relations (GPPGR), Legal, Regulatory, and Commercial colleagues to help convert Alnylam's policy and program priorities into timely and effective advocacy strategies to shape policy outcomes

Undertake policy analysis for myriad public policy matters impacting Alnylam and the biotech industry more generally, including the assessment of proposed legislation (e.g., proposed changes to Medicare and/or Medicaid) and regulations (e.g., annual Medicare payment rules)

Develop primary analysis using quantitative and qualitative approaches, in partnership with internal and external teams (e.g., using Microsoft Excel and supporting work with consultants to analyze public policy issues relevant to Alnylam based on available data) to evaluate the potential opportunities / implications for, and/or impacts to Alnylam, our programs, and patient access

Draft materials (largely using PowerPoint) to clearly communicate complex policy issues with impact on Alnylam using understandable

Support creation and utilization of state budget impact models for

Alnylam products within the Medicaid population, in partnership with Value, Evidence and Strategy and Market Access colleagues  
Monitor and assess the Federal and state-level policy and regulatory landscape for potential issues with direct relevance to Alnylam and our customers  
Create and manage the development and internal publication of the GPPGR Policy Update Dashboard  
Develop Federal and state-level public policy summaries (largely via PowerPoint) to communicate to internal audiences  
Create *ad hoc* summaries of GPPGR engagement on specific policy issues to update Alnylam leadership and internal colleagues on areas of active policy engagement and advocacy  
Perform basic legislative and regulatory research (including but not limited to using the Federal Register, Congress.gov, Social Security Act, LegisScan, LexisNexus, etc.)

Support engagement with industry trade associations (e.g., BIO, MassBIO, Life Sciences PA) and other third-party patient, provider and disease advocacy groups to create coalitions to advocate for desired policies that enable access to rare disease therapies  
Track and report state and federal lobbying activity  
Support Political Action Committee (PAC) operations and reporting  
Develop briefing materials for Alnylam Executive engagements in DC and state capitols with elected officials  
Monitor and track election information and create communications  
Support development of Alnylam's public affairs efforts to create materials for lawmakers  
Other duties as assigned to support Alnylam Public Policy & Government Relations

Bachelor's Degree required; Graduate Degree preferred  
3 – 6 Years of work experience required, preferably in consulting, biopharmaceuticals, health care or public policy  
Strong knowledge of government processes, laws, and regulations  
The successful candidate will be expected to have a positive, "roll your sleeves up" attitude and desire to tackle a range public policy issues to help support the GPPGR team  
A "content creator" with strong analytic skills, as well as outstanding writing and PowerPoint ability, and know-how to simplify complex political or regulatory requirements in writing  
Aptitude to provide internal stakeholders with timely, accurate and well written information to communicate opportunities, threats, and business interests from emerging public policy issues  
Understanding of Medicare, Medicaid, Affordable Care Act, Commercially-insured and state-regulated insurance markets.  
Knowledge of drug pricing methodology a plus  
Ability to manage and prioritize multiple issues and tasks and meet tight deadlines

Ability to perform a cross-cutting role that interacts with numerous business areas such as market access and reimbursement, legal, tax, patient advocacy, commercial, finance. She/he must be able to work effectively with a wide range of internal stakeholders  
Meticulous attention to detail and commitment to high quality and timely work product  
Excellent written and oral communication skills  
Strong relationship management and interpersonal skills are essential

### **Description**

Who We Are: Nebraska Department of Health and Human Services is a state agency that, "Helps People Live Better Lives" every day through our five different divisions; as one of those divisions, Medicaid and Long-Term Care (MLTC) encompasses the Medicaid program. Medicaid provides medical assistance to many Nebraskans statewide. We are seeking a Medicaid Provider Fraud and Abuse Investigator.

### **Qualifications / Requirements**

REQUIREMENTS: Post high school coursework/training in law enforcement, criminal justice, social/behavioral sciences or health related field, nursing, business or public administration, management, program analysis or evaluation of data systems. OR Experience in conducting fraud investigations, administrative investigations, utilization review, data systems, review of records and reports and evaluating their use and effectiveness, policy planning/analysis, casework, nursing, accounting or billing systems.

PREFER: Higher preference may be given to those with experience working with Medicaid claims, MMIS, and/or Medicaid provider regulations. The ideal candidate will also have experience in working on projects and/or implementing new initiatives and be a Certified Professional Coder (CPC) or a registered nurse.

OTHER: Valid driver's license or the ability to provide independent authorized transportation. Ability to travel as projects/initiatives dictate, and ability to work 8-5 core hours in addition to varied hours based on workload and project requirements

#### Knowledge, Skills and Abilities

Must have ability to travel as projects/initiatives dictate, and work 8-5 core hours in addition to varied hours based on workload and project requirements. Applicants must have excellent computer (word processing, database, spreadsheet, desk-top publishing, and on-line research) skills, and strong organizational and writing skills. Must be able to work efficiently and effectively as an individual and as part of a team. Attention to detail and accuracy, and a strong ability to handle multiple tasks concurrently are essential.

## Senior Regulatory Strategist

Company Name **Cerner Corporation**  
Company Location **Kansas City, MO,  
US**

Posted Date **Posted 3 hours ago**

Cerner's State Government team delivers analytics and population health management products for State Medicaid agencies. Our team is looking for our next Senior Solution Strategist with Medicaid, Medicare or commercial payer knowledge from both a technical and business operations perspective. Ideal candidates will have experience aligning business and technical requirements to meet State/Federal regulatory mandates while supporting efficient payer operations. The successful candidate will have primary responsibility for developing Cerner's product strategies for existing and new modular offerings to the Medicaid Enterprise System market. The strongest candidates will have a well-rounded history serving in a variety of payer operations capacities, such as an MMIS Business Analyst, with knowledge from both the business operations and technical perspective.

### **Basic Qualifications**

#### **Qualifications**

- Bachelor's degree in Marketing, Communications, Business Administration, Health Care or related field, or equivalent relevant work experience
- Regulatory consulting, compliance or research work experience, At least 5 years

#### Expectations

- Must live in or be willing to relocate to Kansas City

#### **Additional Information**

Applicants for U.S. based positions with Cerner Corporation must be legally authorized to work in the United States. Verification of employment eligibility will be required at the time of hire. Visa sponsorship is not available for this position.

Some Cerner positions may be obligated to comply with client-facing requirements and occupational health requests, including but not limited to, an immunization set, an annual flu shot, an annual TB screen, an updated background check, and/or an updated drug screen.

#### **Relocation Assistance Available**

Yes - Domestic/Regional

#### **Company Overview**

Cerner is a place where people are encouraged to innovate with confidence and focus on what is important – people’s health and the care they receive. We are transforming health care by developing tools and technologies that make it more efficient for care providers and patients to navigate the complexity of our health. From single offices to entire countries, Cerner solutions are licensed at more than 25,000 facilities in over 35 countries.

Cerner’s policy is to provide equal opportunity to all people without regard to race, color, religion, national origin, ancestry, marital status, veteran status, age, disability, pregnancy, genetic information, citizenship status, sex, sexual orientation, gender identity or any other legally protected category. Cerner is proud to be a drug-free workplace.

The Cardiac Management Solutions division of ZOLL Medical Corporation develops products to protect and manage cardiac patients, including the LifeVest® wearable cardioverter defibrillator (WCD), the ZOLL cardiac monitor, and associated technologies.

Heart disease is the leading cause of death for both men and women in the U.S. At ZOLL, your work will help to ensure cardiac patients get the life-saving therapy they need. To date, the LifeVest WCD has been worn by hundreds of thousands of patients and saved thousands of lives.

ZOLL has been Pittsburgh's Manufacturer of the Year, one of Western PA's Healthiest Employers, and even one of Pittsburgh's Coolest Offices. But it's our unique opportunity to impact people's lives that makes ZOLL the ideal place to build your career.

## **Job purpose**

The New Product Planning Manager for Healthcare Informatics is a critical role within ZOLL Cardiac Management Solutions that will drive long-term strategies for cloud and digital informatics. The position is for a high-energy innovator with a strategic mindset that can develop healthcare informatics strategies and implementation plans for both short and long term. The individual will have a strong combination of business acumen, technical skill within digital, cloud, and mobile

technologies, understanding of the healthcare information system environment, and the ability to create a long-term strategy.

This is a highly strategic role that is critical for ZOLL's long-term success and ensuring we can optimally leverage data insights to maximize impact on patients with heart disease.

### **Duties And Responsibilities**

Primary job duties and responsibilities of the position.

- Develop long-term healthcare informatics strategies that optimize our market position and create sustainable competitive advantages.
- Perform market research to identify global healthcare information technology market trends and drivers, technology developments, remote patient monitoring trends, and reimbursement trends that will shape the future of healthcare delivery.
